

Partner Projects: What We Did Together in 2018

What a fantastic year we shared together in 2018! Through your purchases, donations, financial support and encouragement, here is what we accomplished together in Chicago and around the world.

- We sent funding to Haiti to help pay salaries for dedicated teachers in the rural schools.
- We sold \$1,200 of handmade apron and bag sales for our Kenya Partner's Women's Sewing Group in Nairobi, Kenya.
- We began funding the renovation and repair of classrooms in schools in Kenya and Uganda that are in immediate need of repair.
- We completed funding for the construction of a playground in Uganda and began our support of a similar playground in Kenya. It's a simple project, but it brings such great joy to the faces of these kids!

Our Haiti Partners Jephthe and Mitou Lucien enjoyed a visit to our shop in November. We love it when our Partners come to town!

Some of our friends gathered at Donald and Annie's son's home in Chicago to enjoy a beautiful summer day and learn more about our current projects and activities.

- We helped transport a new pump for a water well in Northern Kenya.
- We helped our Partners in the Middle East who are rebuilding bombed-out schools in Syria, so the children can return to school.
- We shared your cash gifts to our shop's Blessings Jar with our Partners. They are deeply touched by your kindness toward them and their families.
- We supported a Spiritual Formation Program for young mothers through our partnership with New Moms in Chicago.
- We helped to establish a new sewing center for impoverished women in India.
- We shared many items from our shop with our Partners from India, Kenya and Haiti who visited us while in the U.S.
- We continued our partnership to support and encourage the homeless community in Chicago, and we plan to continue this support as long as possible.

Many Thanks to Our Friends, Customers, Donors and Supporters! We are entering Year Seven of Annie's Resale for the World with expectancy and high hopes!
